

Chapter 12

Use with Section 2

REINFORCEMENT

● Cell Organization

Part A

Complete the following table with the correct cell part or function. Refer to your textbook for help.

Cell Part	Function
	gel-like material inside cells
cell membrane	
	directs cell activities
endoplasmic reticulum	
	makes protein
	release energy in the cell
chromatin	
chloroplast	
cell wall	
	stores water, food, and waste products
Golgi bodies	
	digests wastes

Part B

Label each cell part.

Animal Cell

Plant Cell
